

CERTIFICATE COURSE IN Reverse Osmosis Water Purifier

**CHHOTU RAM ARYA COLLEGE
SONIPAT 131001**

Course Designed by:

1. Dr. Naresh Rathee
2. Dr. Jitender Singh Phor
3. Dr. Sadhna Tyagi

Established in 1951
2017

Programme Overview

This programme has been developed in collaboration with the **Pure Watertech Pvt. Ltd.** and **C.R.A. College, Sonipat**. The programme is intended to provide basic knowledge and technical skills in the areas of RO Water Purifier. The programme also aims to develop human resource in the area of RO Water Purifier.

About the Programme:

This Certificate Course in RO Water Purifier has been designed for beginners and mid-range professional. This certificate course is a mechanical engineering course.

Benefits of This Training Program

- ❖ This is a “LEARN BY DOING” Classroom Training
- ❖ Useful for new start-up Businesses in water purification
- ❖ For Work as FreeLancer RO and Water Purifiers Technician
- ❖ To open up a new showroom for multi-brand purifiers
- ❖ Taking service centre or franchise of any reputed brands
- ❖ For Starting Own Branding in purification models and components
- ❖ Starting new manufacturing of the unit of its components

Who can be a part of this course?

- ❖ Persons who are eager for a rewarding job.
- ❖ Managers and Sales Executives of the water purifying Industry.
- ❖ Already working in the industry but sharpening my soft skill.
- ❖ Mineral water distributors.
- ❖ Traders of water purifiers.
- ❖ Fresh / failed SSC/HSC/Graduate /Post Graduate willing to start a new business.
- ❖ Owners of packaged drinking water projects.
- ❖ If you want to train your colleagues.
- ❖ Anyone looking at extra income to meet the inflationary expenses.

WHAT DO WE COVER?

WATER PURIFIER TECHNICIAN TRAINING: BASIC DETAILS

As the name advises, this training compile deals with water purification technology. It is an employment training program.

The main goal of this course is to develop relevant skills in applicants. This proficiency will help them don the role of water purifier technician.

This training program is offered by AQUAFRESH WATER PURIFIERS they are known to offer informal training programs related to water purifier technology. AQUAFRESH WATER PURIFIERS is known to provide this training program through its skill development missions and programs.

Water disinfection is the disposal of abolishing undesirable chemicals, biological impurity, dangling solids, and gases from water. corrupt water is harmful to our health. When it comes to drinking water, it should be free of abolishing, bacteria, and undesirable substances.

We use home-loving water purifiers to purify water at homes. Industries, cold storage, and water disposal of plants use large-scale industrial water purifiers to process and purify water.

Free RO Purifier Training Course-Domestic

A domiciliary water purifier unit consists of several parts and components. Some of the crucial parts are -adapter, membrane, chambers, tubes, pump, valves, wires storage tank, etc.

Like any other appliance, a water purifier may also fault. If any part/component faulty, the entire system may cease to work. This is when a water purifier technician comes in handy.

He/she is knowledgeable about the water purifier repair process and it has several other benefits like the Certificate in Water Purifier Technician course will educate you in different fields of water purifier maintenance and repair.

After accomplishing this course, you will be able to execute tasks such as

- ▣ Installing water purifier system
- ▣ Configuring water purifier system
- ▣ Components of water purifier
- ▣ Working of water purifier system
- ▣ Inspecting water purifying system
- ▣ Identifying the issue
- ▣ Troubleshooting techniques

After accomplishing this training program, you will be able to find entry-level/technician jobs at related service centers/shops, etc.

HOW IMPORTANT IT IS TO CHOSSES RIGHT TRAINING INSTITUTES?

It is a spontaneous training program. It is stimulating to list training institutes since many local level institutes offer this course across India yet it is very important to choose the best training institute in terms of all compatibility.

LEARNINGS

- ▣ Installing water purifier system
- ▣ Configuring water purifier system
- ▣ Components of water purifier
- ▣ Working of water purifier system
- ▣ Inspecting water purifying system
- ▣ Identifying the issue
- ▣ Troubleshooting techniques

CAREER PROSPECTS

After accomplishing this training program, you will be able to find work at inauguration such as - water purifier service centers, water purifier retail chains/shops, water purifier bring together plants, water purifying plants, etc.

ELIGIBILITY

Since it is a spontaneous certification program, qualification criteria may vary from one institute to another. It could be the 10th or 12th pass.

DURATION

Duration of the course is 21 days. 6 days Theory and 15 days internship at Pure WaterTech Pvt. Ltd. HSIDC, Kundali (Sonipat)

COURSE DETAILS

- ▣ What is R.O. Technology & How does it work?
- ▣ Different water purification methods & their comparison.
- ▣ R. O. Applications in different industries.
- ▣ R. O. Application in domestic & Industrial drinking water needs
- ▣ R.O. System Basic & Advance Designs
- ▣ Domestic R .O. Spares parts introduction and applications
- ▣ How to Design R.O. model for different sources of water?
- ▣ Why R.O. Water to drink?
- ▣ Scope of Business of R.O. Systems in INDIA
- ▣ What is the USP of R. O. Systems?
- ▣ What are Profitability And Margins?
- ▣ How to start R.O. System Business? & How to Register your Business?
- ▣ What Basic Infrastructure is required?

- ▣ How many minimum Startup capital investments?
- ▣ How to start a customer acquisition?
- ▣ Different methods of marketing the R.O. systems
- ▣ Extensive Practice & field training & many more...
