**Chhotu Ram Arya College**  
Established in 1951  
**Sonipat 131001**

## **Introduction:**

Photography is an art of capturing or creating real images by recording light, colour and scenes. A photograph is recreated with the help of 'image sensor' or photographic film in a camera. Starting since its inception, the concept of the camera had undergone a sea of changes which have ultimately led to the discovery of modern 'digital camera'. Nowadays, cameras are fitted with an electronic image sensor which produces an 'electric charge at certain pixel' and processes the image electronically.

Everyone loves to take photographs but to excel in the field of photography; one must learn the various modes, settings and the working of a camera. There are courses specially designed for Photography. Be it a diploma course in Photography, or pursuing a Certificate Course in Photography.

They can pursue courses such as Diploma in Event Photography (DEP), Advanced Photoshop (DAP) or Certificate courses in Still Photography (CSP), Digital Photography (CDP), or Sports Photography (CSP) in order to pursue a career in Photography.

## **Programme Overview:**

This programme has been developed in collaboration with the Hans Films, Sonipat and C.R. A College, Sonipat. Hans Films has established itself as one of the top ranked Photographic company which has not only left its mark in the field of Still Photography but also in the field of Shooting of Films and Serials.

**List of Subjects in Photography Course**

It is imperative to have a detailed understanding of all the subjects offered in the photography course. The following section expounds on the Photography Course Subjects. Detailed syllabus will be finalized by the collaborative partner.

<b>Subjects for Photography (Certificate)</b>	
<b>Subject Title</b>	<b>Subject Details</b>
<b>Basics of Digital Photography</b>	This course covers a range of topics, including how the camera works, shutter speed, understanding histograms, depth of field, white balance, long/short exposure, soft focus, and time-lapse photography, and also provides extensive knowledge about all types of camera lenses.
<b>Sports Photography</b>	The module educates students on taking perfect pictures of a sportsperson in action. It also briefs on how to click detailed shots, and story-telling images of the game or event.
<b>Still Photography</b>	How to capture the true essence of what is right in front of us? This is what the subject informs on. While living in a fast-paced world, it is essential to know the tactics of capturing the mood and ambience in images, to tell a story.
<b>Subjects for Photography (Diploma)</b>	
<b>Photoshop Advanced</b>	Students are taught the true essence of Photoshop once they start this module. This subject enables students to

	familiarize themselves with the software patches and healing brushes. It teaches them how to manipulate smiles on faces, correct noses, remove blemishes, etc.
<b>Event Photographer</b>	Always looking forward to capturing special moments, be it any occasion? Why not opt for this specialized course which will enhance your photographic sense and help you become competent in seizing the essence of the moment, festivities, and occasions, editing photos after the event, and delivering the final product.
